**REDPHONE TECHNOLOGIES SET TO LAUNCH NEW  
INTERCONNECT BUSINESS IN THE DESERT**

**CATHEDRAL CITY, CA. – (February 23, 2009)** With more than 25 years in the Los Angeles area as CommWorld Pacific, a new brand of business communications solutions, RedPhone Technologies, brings integrated technology and service to the desert area, announced president and owner Mark Wood.

“We design and deliver integrated, cutting edge business communication solutions and systems, handling everything from the initial consultation and implementation to training staff and providing support,” said Wood. “We are pleased to now provide the newest technology, service and support to desert businesses -- from the sole proprietor to a small business to a full-sized enterprise.”

Contact owner Mark Wood, (760) 651-1268,  
[mark.wood@redphonetech.com](mailto:mark.wood@redphonetech.com). RedPhone offices are located at 68743 Perez Road, Building D, Unit 15 in Cathedral City.

The name RedPhone and its red triangle logo refer to the triangle used in architectural drawings and the red refers to the new Linus based systems that offer unparalleled growth and integration possibilities.

Whether desert business clients are building a brand new communications system in a new facility or simply updating current technology, RedPhone Technologies can provide solutions from business phones to complete IP communications systems that deliver telephones, messaging, networking, conferencing, customer management and unified communications.

RedPhone consultants provide complete service from the initial consultation, through the design process, installation and delivery of the system, including properly training staff and remaining in contact to ensure smooth operation. Ongoing maintenance and support are also provided.

Each project includes a systems consultant, a technology lead, and the proper size team to ensure a swift and efficient installation.

“Having the right team in place with the right skills means your project is on time and on budget,” said Wood.
